## Madam, this timely tip will shorten your cleaning day

Saves both money and energy

FOR twenty-one years thousands of women have saved hours of work every time they clean house. They have found that water becomes velvety soft by adding two tablespoonsful of Bobrick's Cloudy Ammonia to a three-gallon pail of water. And soft water, of course, cleans better.

Bobrick's Cloudy Ammonia, however, is a marvelous cleanser also. There is nothing equal to it for cleaning from basement to attic. It brightens and putifies woodwork, floors, linoleum, and tile like nothing else can. Makes window panes crystal clear,—sinks and drainboards gleam like new, because it destroys dirt, and, leaves a non-greasy surface.

window panes crystal clear, sinks and drain boards gleam like new, because it destroys dirt, and, leaves a non-greasy surface.

Bobrick's Cloudy Ammonia is the only ammonia which contains nine ingredients, each scientifically serving a purpose. Outs dirt and grease instantly by combining with it and forming a scap which quickly dissolves in the water. Requires no scrubbing. Thus household tasks are done more quickly and easily. Soft water also keeps hands smooth and white.

Because it is double strength, it goes tusce as far as ordinary ammonia. Saves one-half the scap, so quickly pays for itself. Leaves a clean, fresh odor.

We have written an interesting booklet which housewives will find invaluable. It contains eleven tips on how to save cleaning time. Seven suggestions for washing clothes, and nineteen other helps. Write today wit's FREE-to 111-117 South Garey St., Los Angeles.

Here's the safest way to wash your fine clothes

Put one tablespoonful of Bobrick's Cloudy Ammonia in two gallons of cold water. Use half usual amount of soap, Soak clothes for half an hour. With little rubbing it makes plain goods come out snowy white. You can restore the original brilliance, lustre and color to woolen goods, laces, crepes and silks simply by sponging them with a few drops of Bobrick's Cloudy Ammonia in a bowl of water and it sets the colors.

BE SURE your grocer gives you Bobrick's Cloudy Ammonia. It is the only genuine Cloudy Ammonia. Imitations will only disappoint you.

At that time I charged that Mr. Garner had agreed to deliver the Texas vote for the Swing-Johnson bill in case Dr. Mead succeeded in trading Colorado River water to the Republic of Mexico in exchange for the water in certain Mexican streams to be used on a reclamation project in Mr. Garner's district.

WELCOMES OPPORTUNITY WELCOMES OPPORTUNITY

"Later you stated in a committee meeting that Dr. Mead had wired some one in Washington saying he was coming back to deny the charge. I desire to notify you that I shall welcome an opportunity to examine Dr. Mead with reference to the Garner transaction and if the opportunity presents itself I shall most assuredly go into the question as to what negotiations have been going on between Dr. Mead and the Bepublic of Mexico with reference to the rights of the upper basin States in the Colorado River basin.

"I therefore request that you call a meeting of the committee and request Dr. Mead to appear and submit himself to examination."

"Your statement that you 'accept the overwhelming engineering evidence and opinion that the best place to build the dam is in Boulder

dence and opinion that the best place to build the dam is in Boulder Canyon or Black Canyon' leads me to believe that you cannot have read the adverse evidence of practically all engineers other than those of the United States Bureau of Reclamation and of the Los Angeles Bureau of Light and Power. I cannot otherwise account for your having made a statement so contrary to the facts.

"I am glad to find in your statement a frank admission that the power consumers of Los Angeles and vicinity are, under the terms of the Swing-Johnson bill, being asked to subsidize the Imperial Valley in the amount of at least \$31,000,000 and, in addition, 4 per cent interest compounded thereon.

INVITES DESATE

"I, too, am interested in giving all veterans of the World War and the Spanish-American War preferential right in the settlement on public lands under reclamation projects. So far as this particular bill is concerned, however, I wonder whether you have read it with sufficient care and examined the maps and evidence relative to the all-American canal in sufficient detail to know that the appropriation of \$125,000.000 authorised in the \$wing-Johnson bill, will not carry water to any lands except those privately owned and will not therefore benefit anyone except those who now own such lands?

"I feel that all political bunk and insidious propaganda should be stripped from the facts surrounding the Swing-Johnson bill. I am sure that you will join with me in this feeling. For the purpose of bringing to the public a correct understanding of the inadequate engineering, the faulty economic investigations and the unconstitutional features of the measure I challenge you to a public debate on the subject.

TONY SAND ... Passens artist and creater of the Teny Surg Mariemettes

"The test was great fun. I was blindfolded and quite positive I could pick out my old favorite brand. I made the test in the presence of responsible witnesses who enjoyed seeing me puff at a cigarette and then take a swallow of really very delicious coffee.

"But I didn't pick my old brand. I picked a cigarette which I afterward found to be OLD GOLD, because it stood out, way above the others, in its winning appeal.

"From now on, I am smoking OLD GOLDS only and recommending them to my friends... They are so superior-so pleasing to the taste, and so soothing to the throat."

Far be it from such as the prietor of this colyum to make any such prediction as the above. As we remarked in advance, we can't see anything to it but the Trojans, and the schedule of points in the above paragraph merely represents the outline of the affair according to the rosy-hused outlook of the loyal Bear rooter, who, we presume, is just as optimistic under the proper conditions as the rooter for any other school.

As for the proprietor of this colyum, we refuse to be disturbed by the thought of the outcome of the morthern meet, but intend to bask in the sunlight at the Caliseum today while the noble high school athletes do their sunff. Having cheered violently for the old alma mater (the one that can't be beat,) we shall return to the office and dig our devoted assistant out from under the Junior Olympic Games entry blanks. That's our good deed for the day.

So that the program will hold the interest of spectators, officials have lined up a number of comedy events in both swimming and diving competitions. Nightgown races, in which contestants will swim with lighted candles, mixed comedy relays, and comical diving will add to the interest and amusement of the spectators. An especialty funny art will be presented by Mickay Riley and Dutch Smith, champion divers, in which one will teach the other how to dive. # BROWNING WILL USE NEW HOLD

Jim Plans to Win Tilt from Londos Wednesday With Flying Toe Grip

Now enters the flying toe hold, a grip perfected during the past few days by Jim Browning, the flying scissor exponent from Kansas, and which he intends to use on Jim Londos when they clash at the Olympic Wednesday night in one of the two big bouts lined up by Tromoter Lou Daro. Nick Lutze and Milo Steinborn battle in the special.

Promoter Lou Daro. Nick Lutze and Milo Steinborn battle in the special.

The flying toe hold, according to Browning, is about the most punishing grip that can be applied to the lower part of both legs at the same time. It is obtained by throwing an opponent off balance, while both are tugging at each other. A scissor is clamped just above both ankles and the opponent rolled over on his stomach. That leaves the legs locked and Browning in a position to get an unlimited amount of leverage.

This is the hold Browning declares he will use on Londos should the latter start galloping away when the going becomes hot, just as the Greek did in their last match here. Browning believes he will not only stop the Greek with the new hold, but force Londos to give up with it because of the pain.

Browning and Londos, as well as Steinborn and Lutse will be seen at their best Wednesday night. There is no doubt about that fact as these four stars are among the fifteen who are being considered as an opponent for Ed (Strangler) Lewis, world's champion, who has been signed to defend his title here May 2. The opponent for the champion will be announced following Wednesday night's matches, Promoter Daro stated.

SAN FRANCISCO, April 13. P.
The San Francisco Seals clubbed out another victory over the Missions today, winning 8-2 in easy fashion, to make it four straight over their local rivals. Walter Mails left-handed the Missions in good style, allowing eight hits and lone tallies in the first and sixth innings. Claude Davenport started for the losers and retired in the eighth with a total of ten hits and five runs made off him. Bill Rodda, Mission shortstop, hit a home run. Boore:

The 21-year-old title-holder is credited with nine knockouts during his last fifteen fights. He is a long, rangy clean-looking youngster with powerful shoulders and a speedy-looking pair of legs.

For several months, Warren has had the benefit of careful coaching by George Tauman, veteran army trainer of World War cantonment fame. Tauman achieved wide fame when he taught several thousand men to box at Fort Riley. He is now physical director of the steamer on which Warren arrived and has been putting the champion through stiff daily workout.

### **ROMANS PICKED** TO TAKE TITLE

(Continued from Ninth Page)
Anderson's City League record of 19ft. 2 1-2in. for the shot put, and may toss the pellet over 50ft. Lombardi has a good chance of beating Vic Klein's 220 mark of 21.8s., and either Foore or Williams are apt to shatter the 880 mark.

Poly's chances of winning the meet rest on Franny Kilfoll in the sprints, Wentzel Weber in the low hurdles, Vignols in the high's. Darby ones in the high jump, Sorenson in the high jump and shot put, and Morgan in the shot.

In all likelihood, the schools will finish as they qualified.

Jefferson has a good man in Creecy, who may beat out Vignols in the highs. He is also a fair broad jumper. Jorden in the sprints, and Cooke in the shot are all sure point getters.

Hollywood and Manual Arts placed twelve men apiece, but the Foothillers should take fourth place, and may even mose out Jefferson for third. Ernie Oswald and Chuck Anderson in the sprints. Thorny Rogers in the 440, Johnny Laver and Laurie Vejar in the broad jump. Paul Grade in the hurdles, and Byron Kelley in the pole vanit are all apt to connect.

Manual Arts has a good man in Cummings in the sprints, Carlson is a fair shot putter, and there are several Tollers who loom as dark

The Arisona Edison Company is an operating company serving light, power, gas and water to a number of leading communities and cities. It operates electric plants in Yuma, Globe, Miami, Bisbee and Douglas as well as the water supply system of Safford and Thatcher, it is constrolled by the People's Arisona Gas and Electric Corporation, which in turn is part of the system of the People's Light and Power Corporation, operating in ten States.

During the past month it was reported that the Arisona Edison Company would acquire a new electric plant for the sum of \$100,000 in Agua Prieta, Son., just across the international boundary. On March 29, plans were submitted to the Arisona Corporation Commissioner for the purchase of the Fiormore public-utilities system by the People's Arisona Gas and Electric for a price of \$160,000.

NEW YORK, April 13. (Exclusive) The Census Bureau's report on the consumption of cotton by American ills for the month of March had been estimated in some of the private guesses put out yesterday in bullish quarters in the cotton trade here as high as between 600,000 and 925,000 bales. Therefore, when the actual figures were announced just before the opening of the market this morning as 551,318 bales there was a general disposition to regard them as very disappointing.

They were only so, however, in contrast with those unduly high forecasts. They compare with 573,-810 bales without inters for February and 582,417 for January. The farch consumption a year ago was 683,081 bales, the highest on record.

After prices has gone off 7 to 10 points in the early trading that decline was recovered during the foremon and replaced with an advance of 12 to 15 points during the early afternoon from yesterday's closing quotations. May went up to 19.89c, July 19.75c, October of the new crop 19.35c and December to 19.42c by 2 o'clock. This brings the range of prices a little above the recent high level for the present calendar year.

### INCOME OF POWER UTILITY INCREASES

An increased volume of business, due largely to aggressive commercial and merchandising activities, and further improvement in operating efficiencies, is reflected in the pamphlet report of Northern States Power Company for the year ended December 31, 1927, made public yesterday. Including new properties for periods operated only, gross earnings for the year amounted to 329,803,158, an increase of \$1,532,442, or 5.42 per cent, and net earnings totaled \$15,092,168, an increase of \$966,876, or 6.34 per cent.

or territory. The properties supply essential public service in 16 states and the Philippines, to 1,000 cities and communities, to 600,000 permanent customers, in a market of 2,700,000 population.

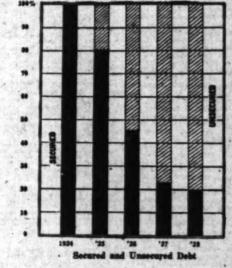

The territories served have the advantage of exceptional productiveness and prosperity:

The value of production in the counties served is over 2½ times the average for the United States.

The average savings account in the 16 states served is 40% larger than the aver-age for the entire country.

84.1% of the net earnings are from electric light and power and gas sales. 40% of the revenue comes from electric sales to domestic consumers and from street

These factors produce the stability of earnings indi-cated in the chart above, which have increased steadily

The continuing credit improvement is equally important for the investor. Secured indebtedness, chart above, has been reduced to less than 20% of the total. Mortgage obligations are only about 10% of entire capitalization. Many properties are completely free of debt.

For the security holder this program has had the following advantages:

The improved credit is demonstrated by recent financing at 4½% compared with 5½% a year ago.
 Savings in taxes, personnel and accounting have been made possible by grouping properties into large units.

Over \$70,000,000 of underlying securities have been retired since 1925. Exchanges, conversions and redemptions are reducing the remainder still further.

Bringing the securities closer to the actual physical properties without prior deduction of charges for subsidiary companies increases for security holders the stability of the earnings.

The proceeds of the Associated Gas & Electric Company's \$50,000,000 Convertible 41/2 % Debentures which were being offered to stockholders with rights expiring April 12, 1928, will be used largely for retirement of underlying and high coupon securities, thus still further strengthening the investment position of the securities to be permanently outstanding.

The new Debentures carry detachable warrants entitling the holder to purchase Class A Stock and Common Stock and are themselves convertible into Class A Stock.

Pollowing a romance of almost a sair, Sylvia Thalberg, scenarist, ister of Irving G. Thalberg, Methons and Mr. Woodworth told the council that a special committee has been appointed to follow up the program on industrial and mineral exhibits for the schools of Southern California.

The council approved the recommendation of the highway safety committee to place the highway officers under the control of the State Motor Vehicle Department and thus eliminate the present dual control of these officers by the

The council put its stamp of approval on the recommendation of the conservation committee that it indorse the bill introduced by Congressman Free, which seeks to make impossible the ling of fraudulent mineral claims in the Angeles National Forest. It was pointed out, in this connection, that persons are filing mineral claims in the forest reserve in order to get cabin sites, and is many cases with a view of acquiring locations that would have to be purchased at a high price by the county in the event a water-storage reservoir were to be established there.

Los Angeles Railway Petitions Commission for Review Refusal to Grant Increases

Declaring that a continuation of the 5-cent fare as ordered by the State Railroad Commission is a confiscation of the company's property and will result in poorer service than is being given now, the Los Angeles Railway Company today will file with the commission a petition for rehearing in its application for an increase in street-car fares.

The commission on March 25, oings, the company's saraings, the company's application for a 7-cent rate with four tickets for 25 cents, and previously, on June 20, 1927, the commission denied the company's application for a 6-cent rate.

Perhaps during the rest of the time he is studying ing the rest of the time he is studying how short he can make his public appeaches. He astonished an English audience by confining his first address over there to twenty-nine words. The Britishers would have preferred 29,000, but Mr. Ford believes in economy in verbal expression as well as in mechanical construction.

IG AND LITTLE FLYERS They are building all kinds of sianes in this section and Southern California may readily become the focus for American aviation. There are big planes and little ones—with dirigibles coming. Glendale interests are putting out a dandy little bird with a five-cylinder radial motor. They say they can get it into the air on a fifty-foot run and have cleared a twenty-five-foot barrier in the doing. These efficient little gnats will be the runabouts of aerial service.

Wide interest attaches to research work recently begun at the University of California as to the why and wherefore california as to the why and wherefore of twins. It is planned to assemble 500 jairs of twins and study them with the atmost care, particularly as to their details of likeness and unlikeness. In this connection it is interesting to note that the family of Andrew Koger, a carpenter of Council Bluffs, Iowa, is composed of four pairs of twins, ranging from 2 years to 10. Perhaps the California awants can tell how this happened, but avants can tell how this happened, but will be harder to tell how a man on r's wages can buy shoes for the

of the state brings home to humanity more poignantly the utter ruthlessness of such criminals than this indiscriminate slaughter of the innocents. That little white hand should stir every right—thinking man and woman in the kingdom of Italy to spare neither effort nor money till the perpetrators of this wholesale murder are brought to the bar of justice and every wild human beast exterminated in the reeking jungles where such plots are hatched. where such plots are hatched. That the King escaped is an occasion for rejoicing among civilized people in every country. The dastardly crime was an occasion for expressions of loyality to Victor Emmanuel that proved conclusively how these inhuman monsters altways defeat their own designs. But who can restore to the bereaved parents the little girl who set out on that bright spring morning to wave a loyal greeting to the King of her country?

The attempt at Milan on the life of Victor Emmanuel is but another instance of the futility of terrorist plotters to attain their end. The cruel slaughter of those who are but innocent by standers and onlookers and totally unconnected with the regime at which these skulking cowards aim their act of assassination is the most damning evidence of their failure. Against every black hand in Italy the little white hand of the murdered child will rise in judgment more terrible even than the assassination of the King himself.

A In Washington they are discussing the merits of Mrs. Herbert Hoover as potential first lady of the land. From what the capital city has seen of the wife of the Secretary of Commerce it is agreed that, should she succeed Mrs. Coolidge in the White House, as seems more than likely, this country would have a first lady of unusual talents.

Mrs. Hoover is a gifted writer. The try. Only one out of twenty of the women graduates at Oxford during the past seven years has married. Yet so far as known the other nineteen could qualify for hopeful matrimony. Looks as if the girls were largely to blame.

### LEGAL SHACKLES TOY PLANE HOLD "CAPTIVE"

Defense Fights to Sunder Technicalities Bond

Judge Upholds Majority of State's Objections

Witnesses Forbidden to Tell Reaction to Play

the prosecution, most of which were sustained by Municipal Judge Pope, attorneys for producers of "The Captice," asserted objectionable drama, valiently attempted to put on a defense for their clients yesterday. The prosecution had closed its case Thursday evening.

Although the defense had the witness room full of persons ready to testify in their behalf, none of them was allowed to give their Culons of the play, or its reaction upon them. Questions such as did the witness hear or see anything objectionable at the performance, or anything that would incite impure thoughts or action, asked by Defense Attorney Clark, were ruled inadmissible by Judge Pope on the ground that they asked for a conclusion of the witness or on other technical grounds.

Despite the fact that the court repeatedly sustained objections to this line of questioning, the defense attorney asked each witness the same questions evidently for their psychological effect on the jury. At one point the arguments between Attorney Clark and Judge Pope became so heated that the attorney accused the court of misconduct.

AROUSES LAUGHTER

AROUSES LAUGHTEE

The names of the defense withesses yesterday included Dr. J. J. Ogycer of Hollywood; Wedgawood Novell, western representative of the Actory Equity Association; Mrs. Desphine: Attorney; H. O. Stechnad, associate editor of the Califordia, Craphic; Attorney Bol S. Klein, and Kenneth Thomson, Ann Davis, Exwence Crant, members of the sast of "The Captive."

Attorney Elein brought a shout of laughter from the courtroom when he declared, despite frantic objections of the prosecution, that the acting of the drama and its general reaction was "wonderful." His remarks were promptly ruled out of the record and he was instructed to hold his answers until the prosecutors had time to object to the questions.

Stechnan and Nowell, each of whom asserted they had long experience in dramatic work, were allowed to testify that they thought the play was of excellent dramatic construction and that the acting was above the ordinary.

\*\*CHANGE IN LINES TOLD\*\*

Ann Davis, leading woman in the drama, testified she had played her part in other cities, but when she was asked whether the other communities had condemned it the prosecution again objected and was suistained by the court.

\*\*Lawrence Grant and Kenneth Thomson, the latter the leading man, in "The Captive," took the stand and testified mainly about changes in the lines of the play from the original version by the Los Angeles producers. This apparently was an attempt on the part of the defense to establish that they heard at the show, as stated, by a search warrant and not what they heard at the show, as stated, by a search warrant and not what they heard at the show, as stated, and the prosecutor's office was merely a copy of the play brained by the court.

Aconference of both sides after yesterday's session indicated that the trial probably will end by next Tuesday.

Chaffey Union Athlete
Seriously Injured When
Weight Goes Wild

ONTARIO, April 13. — Although
grave fears were felt for his recovery last night, physicians today were hopeful that Lester Eisenbraun, sophomore at Chaffey Union High School, will recover from the effects of being struck on the head with a twelve-pound lead shot used in practice by athletes at Chaffey.

Eisengraun, one of the star weight men at Chaffey, was struck on the head and neck my the heavy hall. He fell unconscious and later was revived in the training quarters. Cordell Richardson, a senior, was throwing the shot in the manner the discus is hurled. The heavy ball slipped from his hand, flying at a tangent. The Chaffey student body had pinned their faith on Eisenbraun winning one of the three first places in the acuthern prepinest preliminaries Saturday.

SAN FRANCISCO, April 14. (Exclusive)—Two hours from the lights of Los Angeles to the lights of San Francisco.

At 2 o'clock this morning, as our monoplane rode high above a spur of the Sierra Nevadat, there was still an opal glow on the southern horizon. At 4 o'clock as we emerged from a cloud high above the mountains at Livermore an opal glow lighted the horizon to the porth. Early morning when we left Los Angeles; early morning when we reached San Francisco—so closely are the twin eities of the wost united.

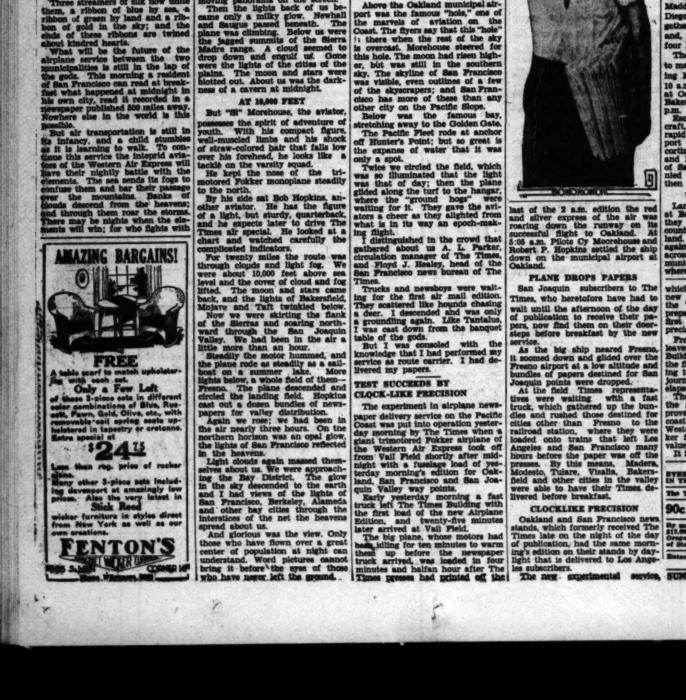

Boaring on the wings of the morning, progress enables them to class hands over a stretch of more than 500 miles of the most scenie, fertile, happiest laind on the shores of the seven seas—a land of magic and mystery—California.

Enterprise is the lamp of Aladdin, that lights the world; and enterprise includes San Francisco and the bay district among the suburban routes of the Los Angeles Times, I am carrying with me thousands of copies of the 2 a.m. edition of The Times to be delivered in the bay district, the longest newspaper rouls in the world.

I feel that I am a messenger of the south was still in my nostrite when my forchead was moistened by the brisk, health, giving breess liewing eastward through the Golden Gate. I saw Los Angeles covered with a panophy of light from horizon to horizon—a million stare when glow dimmed the candies in the heavens: and I was greeted by another million lights set in the string of pearls formed by the prond cities that encircle San Francisco Bay.

Fraulein Hertha Junkers, daughter of the designer of the Bremen, was ready at Michel Field, Long Island, today to hop off with her pilot in the F-13 to attempt the rescue of her compatriots, but the project was given up as hopeless when late weather reports arrived. Officers of the North German Lloyd Line were reported tonight as having a hunch that the fiyers will repair their own machine and proceed to Long Island unaided.

"If the fiyers are taken off by the Monteain, and there now is every reason for belief they will be, in due course, they may be landed at a Canadian port, probably North Bidney, and taken to New York via plane.

RECOGNIZE WANDERER

California Man

PORTLAND, April 14. (P)—Acting on information from W. W. Keeler of Heber, Cal., police today were communicating with Riverside (Cal.) authorities, with a view of establishing the identity of an amnesia victim who until Thursday was under the care of local police. The man, who suffered a loss of memory three weeks ago, left for the North Thursday after all efforts of Portland police to identify him had apparently failed.

Keeler, in a letter to Police Chief Jenkins, said he recognized photographs of the man. He said the man had traded at his service station in 1926 and was known as "Amy." Keeler believes the manhas a wife and two children at Riverside.

HER PRINCE

LONDON, April 14. (Exclusive)—
Marguerite Watson of Washington, and Prince Charles Philippe d'Orleans, the Duke de Nemours, son of the Duchess of Vendome and nephew of King Albert of Belgium, whose hectic romance has intrigued Europe ever since the groom's family tried to check it by forestalling the Catholic dispensation, provided a new sensation today when they secretly met at the Henrietta-street registrar's office here and were married under the civil law. The quiet ceremony was attended only by the American vice-Consul and L. Chariton, sor-in-law of the Earl of Carrick.

The bride, who is the daughter of the late Pitsgerald Garrett Watson of Washington and Newport, arrived at noon, with the Prince. She wore a navy-blue frock, long navy-blue coat triumed in fox fur and a cloche hat to match.

The bride is convalencing from an appendicitis operation which was first given as the reason for the postponed marriage. LONDON, April 14. (Ex

## Result Getting Sales **Executive Wanted**

Sound, progressive and highly successful manufac-turer with national distribution, after having auccess-fully operated a few stores direct through which to sell his product, now offers a real opportunity to a provenly successful, hard-working, result-getting sales executive who can expand the operations of these stores and open, organize and bring to a suc-cessful point many additional ones in the larger

This is a well-known, standard product—a necessity—selling at an average unit price of around \$20.00, both through customers coming to the stores and through small sales organizations calling on business

Position will pay well to start, with possibility of the future limited only by the man's capacity. We will consider ONLY applicants who have a past, proven record. Beginners or men without successful experience cannot be considered. No investment is re-

Successful applicant must have proven himself a thoroughly sound merchandising executive besides having ability to organize a small sales force for solicitation work. He must have ability, resourcefulness and enough experience to take the local eltustion as he finds it in any city and generate an activity that will bring in the business.

Don't waste your time or ours unless you can qualify and unless you are a hard worker, willing to get out and really hit the ball to put over a really big merchandising proposition. This is the chance of a lifetime for some able, go-getting, experienced man. Address all replies which will be held strictly confidential, to N. A. S., Box 228, TIMES OFFICE.

Always Hudson's First Principle

LJUDSON leadership of mode extends to every detail and marks a new Hudson supremacy, as definite as its mechanical dominance through the Super-Six principle, and its companion invention which set today's standard for motor performance.

Every item of finish, construction and equipment expresses value as tangibly as its great chassis qualities. Come and examine the new Super-Sixes. They will give you an entirely fresh view of motor values.

In all 6-cylinder history there has never been such spectacular acceptance of any car as that which everywhere greets the new Essex Super-Six. It is outselling all other "Sixes", and its own previous records, by such outstanding margins as to leave no doubt of its leadership.

In some places its sales excel its former mark by 100%, 200% and even 300%. In

Detroit, for instance, where automobile values are understood better than anywhere in the world, Essex sales have been greater than the next three "Sixes" combined.

Such success can only reflect an accurate and unmistakable public appreciation that Essex is the World's Greatest Value—Altogether or Part by Part— Please Compare.

#### State Prison in Texas Filling Up

AUSTIN (Tex.) April 14. (Exclusive)—When Gov. "Ma" Perguson retired from office a little more than a year ago, there was a total of 2021 convicts in the State penitentary. Due to her wholesale pardoning of prisoners, the number of convicts was constantly decreasing. When Gov. Dan Moody began his administration, he adopted the policy of granting very few pardons and as a result of his adherence to this rule, the prison population has increased to 4425 which is the greatest number that was ever in the State penitentiary at any one time.

One of the interesting features of a report just made by the Prison Commission is that during the year. 1977 there was a total of 453 convictions for violation of the liquor law. This is exactly the same number of convictions for similar violables of convictions for similar violables in 1926.

It seems there is a strong likelihood of Borah remaining East after the LC.A.A.A. meet on May 26 in which the Trojans will be represented, as usual. It is said that Borah doesn't fancy so much traveling, including a trip East for the eastern intercollegiates, a return here for the Pacific Coast Conference meet at Missoula, Mont., the western Olympic trials at the Collseum and then another quick skip East for the Olympic finals.

At that you can't blame him, particularly if he has to be busy with his dental examinations when he returns here to race Paddoch and Wyhoff. But the funny part of the matter is that the U.S.C. coaches just can't seem to agree on the matter. Dean Cromwell says Boral will positively return and run in the Coast Intercol-legiates at Missoula on June 2 in addition to the Olympics here June 16. Tommy Davis says Borah positively will

The Bonnans galioped away with every first place in the track ovents except the high hurdles and the quarter and only those who were right at the Shish were in a position to see just how clove fird Houck came to capturing that last event. That stretch duel of ever 100 yards between Regers and Houck was a classic.

These who have been werrying about some competition in the high-school ranks for Wyloff and Siecum of Glendale ought to be all steamed up over the prospect of seeing what Lombardi can do. The Roman sprinter has a fast start and a beautiful iong, easy stride and if he deem't bother the Glendale sprinters in the 100 well guarantee that he will in the furious. Those two L. A. ### LOWRY'S RABBIT PUNCHES

My Redondo correspondent, Mr. W. S. Cummings, who has furnished several discourses for this department during the track season, is right on deck with some new stuff for the Sabbath. Although the interest in his text, "Times When an Old Cuy Feels Almost Like Talking," may have abated to some extent because of its bearing on the late IllinoisU.S.C. track meet, the old-timers as well as the young timers will find it edifying. His discourse follows:

"What's the maiter with a meet like that in the Collseum Saturday?
The only objection noted by writer was that more tiers of seats were not covered. One need not necessarily attend an Coxy-Pomona meet for close scores. On a rare day like that with such settings, L. #### Many Entries in Wilson Swim

VENICE, April 11 (Exclusive)— Entries and fees of one dollar and a half (\$1.50) have already com-menced to pour in for the seventh annual C. B. Wilson trophy and professional swim, to be staged this summer off the Venice and Ocean Park shore line over a ten-mile route.

## WHAT THE MOVIE CAMERA SAW IN OTION-PICTURE CAMERA

Here are five pictures of the finish of the 180-yard dash in the S.C.-Illinois meet last week. No. 1 shows Borah about to hit the tape. No. 2 shows him just breasting the wersted. No. 3 pictures Borah across the finish line. In No. 4 Draper's leg may be seen at the left of Borah. No. 5 shows Borah about to leave the picture, with Draper's leg becoming more prominent. The watch at the left records the exact time for each picture.

## SOCCER TEAMS STAGE

To judge from the advance interest in the event on the part of fan and participant alike, according to Wilson, the entry his will undoubtedly double that of any preceding year and the number of speciators should enter the 100,000 mark.

Cash prizes aggregating several hundred dollars for both men and women will supplement the Wilson trophy, a great-sized and beautiful cup which will become the property of the first swimmer home. The course selected by Wilson and others in charge is the one-mile stretch of water lying between the Venice and Ocean Park pleasure piers. Five complete round trips over this area will comprise the tenmile race. The small entry fees may be delivered in person or mailed to Wilson at the Beach Drug Store, Market street and Trolleyway, Venice.

off, I was cranking the camera at a rate of thirty-one pictures per second, as shown by the watch which was photographed simultaneously. There is then a period of rest for nearly the whole one-fifth second during which six or seven pictures are being taken. It is therefore possible to read on the film just where was an argument over the outcome of the 100-yard dash, some of the actual ticks take place. By choosing two of them one second apart and counting the number of pictures taken during the interval, it is possible to determine the interval between each picture. As I stated, the rate at the start of the race was thirty-one pictures per second.

The Senate recently passed the Jones bill to keep the government permanently in the shipping business and a House committee promptly cut out all but the enacting clause, rewriting the measure to give private shipbuilders and owners a chance to develop a merchant marine that will be something besides patched-up old hulks to run on poorly paying lines in competition with those nationally owned and operated.

Again the Senate has passed the McNary-Haugen farm-relief bill by an increased affirmative vote though it embodies most of the features that caused president Coolidge to veto it at the last session. This, on its face, is another sop to radical sentiment and a political appeal, on unsound grounds, for the farm vote. This measure now goes to the House, whose action on it is still in doubt. At any rate, since it includes the objectionable equalization fee to take care of surplus crops, it is hardly likely to get past the President.

THE WEEK IN POLITICS

BY KYLE D. PALMER

As coming events cast their shadows before, current develop-ments in the Presidential race may be more or less accurately fore-casting what is to occur among the Republican delegates at

size, it is apparent that four notable personalities will come before the Republican convention, and that the Democrats will have at least three outstanding leaders from whom a choice can be made.

Should President Coollidge make no further comment on his thrice-repeated declination to become a candidate it is likely that a dis-hard group will do everything possible to stampede the convention into an impressive draft-the-President demonstration. Evidence is not lacking that this plan is well advanced and that it will be used either as a direct attempt to force Mr.

stration. Evidence is not lacking that this plan is well advanced and that it will be used either as a direct attempt to force Mr. Coolidge to accept the nomination, or as an indirect enslaught on the candidacy of Secretary of Commerce Hoover.

Mr. Hoover is holding his own in what has become throughout the nation a most stubbornly contested preconvention race. His name will be submitted to the voters of Ohio on the 34th inst. under circumstances that are not altogether auspicious, as the Commerce Secretary's political foes in that State have sought to embarrass the Hoover ticket by making sentimental appeals in behalf of the group of delegates appearing on the ballet as pledged to the candidacy of the late Senator Willis.

Developments in Ohio politics following the sudden death of Mr. Willis plainly disclose that the Willis-for-President movement was as much an anti-Hoover gesture by the politicians in the Buckeye State as it was a pro-Willis undertaking—and a suspicion harbored here and there prior to the Senator's death that his candidacy was actually advanced as a screen for the aspirations of Vice-President Dawes seems to have been justified.

Whether this be true, it is a

for the aspirations of Vice-President Dawes seems to have been justified.

Whether this be true, it is a fact that energetic efforts to line up the Willis delegates for for-mer Gov. Lowden accomplished very little for Mr. Lowden, but did succeed in smoking out the existence of a strongly organized group committed to Mr. Dawes.

It is probable that those man-aging the "dark horse" campaign for the Vice-President were not altogether pleased, as it is ob-viously their hope to keep Mr. Dawes in the background until a Lowden-Hoover deadlock demviously their hope to keep Mr. Dawes in the background until a Lowden-Hoover deadlock demonstrates the desirability of a compromise candidate. Too much attention to the Dawes candidacy before the convention gets under way would rob it of much of the tactical advantage optimarily expected from such undertakings.

ments in the Presidential race may be more or less accurately forecasting what is to occur among the Republican delegates at Kansas City and the Democrats at Houston next June.

Less than sixty days remain expectable to the group of professional politicians who desire a candidate more amenable to their own views. The situation in this regard nationally is epitomised in the party's convention line-up will have been determined.

Without reference to the many smaller candidacies, any one of whom under favorable circumstances might assume formidable disne, it is apparent that four notable personalities will come before the Republican convention, and that the Democrats will have at least three out.

The situation in this regard nationally is epitomised in the party's convention line-up will have experience in the art of practical politics, is conducting an anti-Hoover campaign of a most intensive character. Insure the party will come before the Republican convention, and that the Democrate will come the convention and that the Democrate will not be surprising if Gov. Smith should take cog-

an anti-Hoover campaign of a most intensive character. Indiana's Presidential primary will occur one week after the primary election in this State, which occurs two weeks after next Tuesday.

It would not be surprising if Gov. Smith should take cognisance of the California election by making a further pronouncement on the wet and dry issue, as the fight in this State between the Smith ticket and the licket pledged to Senator Walsh of Montana largely hinges on the prohibition question.

As the Smith-Walsh contest in California appears superficially at this time there is no substan-

allegiance of that State's group of ninety-one delegates, more than forty-five of whom are as serted to be favorable to Mr. Hoover, but none of whom will be formally pledged to any candidate. In New Jerzey, which has heretofore been expected to elect an uncontested Hoover delegation of thirty-one, supporters of Cowden will try conclusions with two or three Hoover pledgees representing farming districts.

Pennsylvania's seventy-nine delegates will be chosen coincidentally with the primary election in Ohio. On the same day the Republican voters of Massachusetts will elect an unpledged delegation and, on a separate ballot, express informally a preference for President. Massachusetts beliot, express informally a preference for President. Massachusetts beliot, express informally a preference for President. Massachusetts beliots without the formality of his approval or disapproval. Bay State advocates of Mr. Hoover's candidate will be accepted by the Massachusetts electorate and that Mr. Hoover will be given an impressive indorsement.

Victory for the Republican candidates favored by the organisation of Senator Deneen in Illinois removed any question of the control of the Illinois Republican delegation by the Lowden forces, which had been apprehensive of the results of the propaganda put forth by Mayor Thompson of Chicago in behalf of another term for President Coolidge. However, despite the impressive proportions of the Deneen Lowden landsilde, the Hoover camp may find some consolation in the elimination of the misc in its alter phases prevent and that Mr. Hoover will be given an impressive indorsement.

THE OWL DRUG CO'S SALESPEOPLES SERVICE CONTEST April 15th to April 30th inclusive \$500.00 in CASH PRIZES

To be awarded to the Owl Drug Co's most courteous and efficient Saleswomen and Salesmen

### THE PUBLIC TO BE THE JUDGE!

The Owl Drug Co wants to do more than merely sell merchandise — we want to render proper service to our customers. Therefore, we are asking our good friends and customers—who are logically the judges—to help us reward our most courteous and efficient salespeople in The Owl Drug Co Stores of Southern California.

To make the contest easy for the public to judge, we have provided in all the stores of The Owl Drug Co questionnaires enumerating factors upon which the salespeople are to be judged ... copy appears at the left.

## BETTER DRUG STORES—

For some time we have used the phrase 'Better Drug Stores' to express to the public the faith that is in us . . . We believe that Owl Drug Co Stores are Better Drug Stores not because our facilities permit us to carry larger stocks, greater assortments, and to give uniformly better values, but also because each store represents an intelligently organized and systematized intention to serve you in a better way.

#### \$250.00 In Cash Prizes to our Customers!

For the best suggestion or suggestions submitted to us by our customers, the following Cash Prizes will be given:

First Prize ......\$100.00 Second Prize ..... 50.00 Fifth Prize ..... Sixth Prize .....

Suggestion must be suitable of being used in the improvement of our business. Note—On the back of the questionnaires for the Salespeoples Service Contest is a space provided for your suggestion. However, if you wish you may send in your suggestion by mail to The Owl Drug Co Main Offices, 551 South Broadway, Los Angeles.

All suggestions must be in by Midnight, April 30, 1928. THE OWL DRUG CO'S AIM AND PRIDE IS BETTER DRUGSTORES

Television may create certain changes in the broadcast situation. It seems highly improbable though that large interests will let television out of the bag without something in return. In other words, the final outcome of television will mean that we must runt the attachment for radio sets on a specified monthly rental charge, just as we hire the telephone.

Wired wireless probably will make inroads on the present-day radio program structure in some form or other, but basically broadcast, irrespective of television, wired wireless or anything else, bids fair to continue more or less as it is now, so far as it means the audience will be seated before the receiver while in the studio the force will perform for the edification of the listeners.

## The Popular Vogue in Floor Coverings

Plain seamless rugs—in solid, refreshing colors, with an occasional Persian rug appropriately placed over the plain surface to add interest and color, just as a beautiful painting adorns the wall—this is the popular vogue in floor coverings.

Plain, one-tone, broadloom Wiltons, imported from England, in 12 and 15 foot widths, may be had in beige, orchid and reseda green at \$11.75 per sq. yard.

Plain, broad-loom Wiltons of another grade may be had in 9 foot, 10 foot 6 inches, 12 foot and 15 foot widths in apple green, fawn, egoplant, rose taupe, gold, blue, and in fact, in 20 different shades, at \$7.50 per sq. yard.

Templeton's imported Scotch chenille carpetings in any width up to 33 feet seamless, may be had to order in any desired shade, at \$15.00 per sq. yard.

Small Persian rugs recommended for use over the plain carpets are modern Sarouks and Lilliahans, and semi-antique Sarabands, Khorrasans, Irans and Tabriz rugs, of which many beautiful examples are shown.

The privilege of deferred payments is available to responsible patrons.

Particularly appropriate for the Living Room and Dining Room of our Southern California Spanish type residences are the beautiful Castilian loom tufted rugs. The designs and colorings suggest old Spanish textiles. They are in room sizes.

## What Hostesses Have Been About Lately

Betrothal Told at Bridge-Luncheon

[Maryland studios, Pasadena]

R. AND MRS. BRAINERD B. SMITH of \$31 Orange Grove avenue have announced the betrothal of their daughter, Miss Katherine Jane Smith, to Russell D. Twomey of Van Nuys, the news being told at a beautifully appointed bridge-luncheon at the Flintridge, to which twenty-eight guests were Betrothal Announcement
Mrs. Robert H Prichard of 200
South Mcriposa avenue, formally
announces the betrothal of her
daughter, Miss Roberta Helen Prichard, to Reginald Meyer Bacot of
Meridar: Miss, the wedding to be
an event of the near future.
Mrs. Prichard and her daughter,
the latter an alumnae of Mariborough School, have but just returned from an extended trip
abroad. Miss Prichard is giving a
trousseau tea at her home Friday,
from 4 to 7 pm., the guests being
a coterie of intimate friends.

Farewell Tea

Mrs. Charles A. Smith and their daughter, Dorothy; Mr. and Mrs. Walter Pagin, Mr. and Mrs. C. D. Thompson, Miss Nellie C. Searmans, Mr. and Mrs. F. H. Dodge and family, and Dr. and Mrs. S. J. B. Beverly-Wilshire Hotel will be getting for a dance with the setting for a dance wi

One of the lovely affairs of the week will be the tea with which Mrs. Fred Hathaway Bixby is entertaining at her home in Long Beach Rancho Los Alsmitos tomortow afternoon in honor of Mrs. Allan C. Brich and Mrs. Ernest Albert Bryent, who are planning to leave shortly on extended trips abroad. The hours are from 4 to 6 p.m.

Mrs. Rollin B. Lane is planning a luncheon for Friday afternoon, May 25, at her home. "Holly Chateau," 7001 Franklin avenue, Hollywood.

Bridge Tea

Entertaining a group of college friends Miss Helen Plummer and Miss Elizabeth Cameron acted as cohostesies at a delightful tea and bridge party when lavender and yellow shades were used in the tailles, and bouquets of flowers, including j.mquils, tuilps and lark-spur adorned the tea tables. Eight tables were arranged for the card games. Both Miss Plummer and Miss Cameron are members of the Kappa Delta Sorority at University of California at Los Angeles. They were assisted in entertaining by the latter's mo'oer. Mrs. R. B. Cameron of 1823 North Orange Drive, Hollywood.

in the presence of about 400 friends and relatives.

The bride was lovely in her gown of white tulle made ulving simple lines. The skirt had three tiers, each edged in silver, short in the front and long in the back. Once side was a large silver bow. The bridal vell was of tulle and Spanish lace caught at each side with a band of orange blossoms and fell in a long court train. Her bouquet was a shower of brides roses and lilles of the valley. Miss Rubin chose as her matton of honor her sister, Mrs H. Curland, who was in fiesh-colored georgette and carried a bouquet of pink roses. Miss Ann Rubin, cousin of the bride, was maid of honor in Nile green tulle and carried an armelul of Ophelia roses. The bridesmaids were Nellie Clason, Mary Haimsohn, Rose Kurland, Mildred Handler, Frances Berman and Fanny Kravtsow, gowned in pastel shades and carrying armelus of

In Paris!

Now, American girls are showing the French how to wear clothes! Doris Padmore, lovely New York City girl whose hom: is at 70 Barrow Street, is in Paris, displaying gowns for Jean Patou, the famous French designer.

The girls over there have another trick to learn from her. She says: "Everyone marvels at the lustre and softness of my hair." Many of the girls ask me if I use brilliantine. I always delight in telling the easy way we New York girls take care of our hair. All we do is just put a few dashes of Danderine on our brushes each time we dress our hair. The fast few times I used it all my dandruff disappeared and every time it gives new sparkle and life to my hair. It keeps it in place, too. just like I arrange it and makes my acalp always feel grand. I don't have to shampoo nearly so often, eithern now that I'm using Danderine."

Every application of Danderine. "Every application of Danderine."

Every application of Danderine refreshes and tones your scalp. It removes the oily film and makes every strand gleam with new lustre. It dissolved dandruff and keeps it out of your hair, the sticky or oily. All drug stores have the big 35c bottles.

PRINTED CHIFFONS FOR AFTER-NOON AND EVENING WEAR AND SOME PLAIN COLORED CHIF-FONS HAVE BEEN SPECIALLY PURCHASED AND PRICED FOR THIS-AN UNUSUAL EVENT.

The quality of the chiffon is beautifully soft and artistically patterned, making it adaptable to the feminine lines of this season.

Afternoon Frocks are fashioned with long sleeves, with molded hip lines and tiered skirts achieved by flounces and gathered ruffles. Uneven hemlines add grace and sophistication to boldly patterned frocks, while the diagonal necklines with scarf collars are smart.

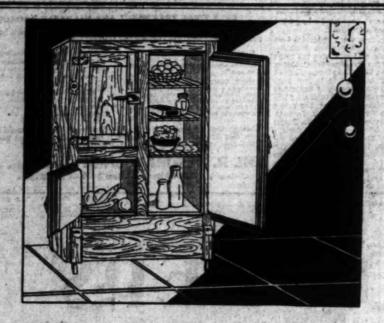

Evening and dinner gowns are made sleeve-less with the surplice waists, tight-fitting hip inea and scarf-like draperies which hang below the edge of the skirt on either side giving a sweeping, fluttering effect. Plain colored chif-fon is used to advantage in several of the

It was scarcely eight months ago that John Boies, finishing work in his first picture, his first leading role, as well, that opposite Gloria Swanson in "The Loves of Sunya," took a long breath and surveyed Hollywood with something approaching apprehension.

There were so many young leading men in this center of cinematic achievement. Romantic looking young men with eyes fully as soft and brown as Johnny's, and who had had ever so much more experience before the carners than this young singer drafted overnight from his work in New York by Gloria Swanson.

These crook pictures present an interesting phase of the world of today. If one half of the world doesn't know how the other half lives it stands in a pretty fair way to find out, provided it visits the motion-picture theaters.

Rich in drama are these underworld films, raw beefsteak drama. They are virile stories, rapid of action, an about face from the somewhat leisurely stories of flapper love and Irawing-room intrigue. Paramount, which produced "Onderworld," heads the list with a whole procession of films of this type.

"Feel My Pulse," a Bebe Daniels picture, is a bootlegging story. "Partners in Orime," a recent Wallace Berry-Raymond Hatton vehicle, is a farce on crook life. "Something a Mways Happens," starring a Esther Raiston, has a jewel theft with a background of a haunted house, musty cobwebby rooms, menacing shadows and hair-raisment up emotions, changing like

#### BOWL SEASON PROMISING Made Known by

Bernardino Molinari, the Italian conductor who has had several guest appearances with eastern orchestras this year, will have a Bowl week and if the rumor that All fredo Casella is to conduct here is eventually discredited, undoubtedly it will be Molinari who will conduct the Rhapsody Italia, La Cliana and Scariatiana by Casella which appear on the summer's program list.

Aaron Copland, the radical composer who has tweaked New York, by the ears, has written a much talked-of concerto for piano which is to have a Bowl hearing conduction of by Coates. Possibly Copland may do the piano part himself.

Little is publicly known about the soloists at this time but it is apparent that some woman singers with a very respectable reportoire has been engaged for such numbers as Max Resper's Maria and Weigenhied and a certain famous song by Weingartner.

Newest and Most Useful of Aids to Reading

## The Booklite

Reading at night has long been a problem. Now you can have your light JUST RIGHT.

Its greatest joy is while reading in bed. This new light clamps to the back of your book. (Felt pads protect it.) It is so arranged as to throw the light perfectly on the open page. When you are finished simply close your book. The book light stays in place until you wish to change it to another book.

In a half a dozen colors; (match the color of your bed or your draperies!)

This remarkable device is only \$3.00. And to be bought only at Bullock's in Los Angeles. Presented for the first time, tomorrow.

The Much Talked of "Pine Tree" Pattern in Sterling Silver

When the first silver coins were mint-When the first silver coins were minted in America they were stamped with the image of the pine tree . . . thus they were named Pine Tree shillings. This design has been adapted in a fine, frank, simple manner and used as a decoration of sterling silver tableware of a distinguished type.

The pine tree appears in relief on each piece, an unmistakable indication that this flatware is sterling.

years.

Of all the roles Nugent has played in the fifty years of his career, none pleased him more than the role of Trader Horn in "Rain," New York production. As this picturesque trader of Pago Pago in the South Seas, Nugent scored one of the biggest successes of his career. He was haled a "dead ringer" for the old-timer who has been much in the limelight of recent months. By a queer quirk, Nugent had known Trader Horn personally, having been in Pago Pago on an adventuresome jaunt at one time. He little dreamed that he would ever portray the quaint character, but he did it so effectively that the Trader himself later complimented him.

The other role which appeals to Nugent is that of Capt. Roberts in "Hit the Deck." It is the first role of navy captain he has ever played and it offers him that stern, dignified and easy-going manner which is a part of his personal character. It offers him a new field and he apparently revels in it as proven by his portrayal of the role.

He is best known locally for his work in "Madame X." "White Cargo and "Lucky Sam McCarver."

"The Patsy," now playing at the Uptown Theater, did it put on at

the filming of the production, for it was one of the "eatingest" pictures ever. made.

King Vidor started off the very first day's work with a dinner party that lasted from 9 a.m. until 7 p.m. In this sequence, which was a breakfast and luncheon at the home of the Harrington family, Marion Davies and Marie Dressler, Jane Winton and Del Henderson consumed forty-eight bowis of soup, and then finished up with six roasted chickens, before Vidor expressed himself satisfied.

Bearcely had this sequence been finished and the company recovered from the effects of the orgy, than they started work on ont of the big spectacular details of the picture—a big dinner-dance at a yacht club—and everybody had to start eating all over again. This time, however, in addition to those already mentioned, the repast was shared by Orville

addition to those already mentioned, the repast was shared by Orville Caldwell and Lawrence Gray, and some 1200 extras. After the picture was finished the company declared themselves ready to go on a diet.

The villains of the screen are all becoming virtuous; and the heroes are all getting tough.

George Bancroft, they tell me, balks at villain parts; and an alarming number of bad men refuse to be that way any more. They want to have the little children love them.

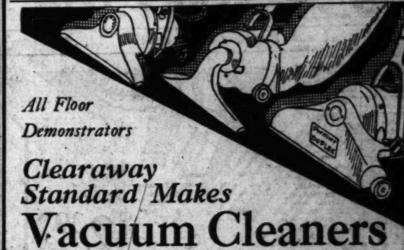

The virtuous young heroes of the screen, on the other hand, are turning into rough guys. Bill Haines is always a conceited, egotistical young squirt; and Bill Boyd a tough guy in overalls who does not live for one girl alone—as in the older and elementally were de-
